TO WHOM IT MAY CONCERN

We strongly recommend "Media Design" Company for your projects

LABSERVIS LTD started its activity in 1991 as the first professional IVD (In Vitro Diagnostics) company specializing in complex supplying of laboratory diagnostic products in the healthcare industry of the Republic of Azerbaijan. The company is the official distributor of more than 40 worldwide known manufacturers from Europe, USA and Japan.

In preparation for the website update, we compiled a list of key requirements:

- the website should contain a description of the products provided by the LABSERVIS LTD, as well as a list of its Partners and Clients.
- special attention should be paid to the multi-level Product catalog with a detailed description of the equipment offered.
- the chronological sequence of Projects should be reflected on the visual basis of the DNA helix.
- an interactive map of the LABSERVIS LTD's regional activities should be implemented
- the website should be displayed among the first in search results.

After discussing the project with the "Media Design" Company, we realized that we were dealing with professionals in their field, and signed a contract with them. As a result, we received a website that took all our wishes into account. We recommend the "Media Design" Company as a proven and reliable partner.

Dr. Mais Sailov , Ph.D.

Managing Director
